EDUCATION

SR University

Bachelor of Technology in Computer Science

2023-2027

Current GPA: 8.75/10

COURSEWORK

Courses: Software engineering and system Designing, Data Structures & Algorithms, Design and Analysis of Algorithm, Database Management System, Probability & Statistics

SKILLS

Programming: Python, C

Core Concepts: DSA

Web: HTML, CSS

Database: SQL, PL/SQL

Software Engineering: SDLC, Agile

PROJECTS

Pet-Palace

Dec 2024

- Developed the frontend of an e-commerce site for pet buying and adoption.
- Designed responsive layouts and user-friendly navigation using HTML, CSS, and JavaScript.
- Enhanced customer experience with detailed pet profile pages and accessible UI components.

Automatic Plant Watering System

Nov 2023

- Developed automated watering system using moisture sensors
- Conserved water and reduced manual labor.
- Promoted healthy plant growth through precise irrigation

EXPERIENCE

Web Full Stack Developer | *eduskills*

April-June 2025

- Designed responsive web pages with HTML, CSS.
- Built UI components ensuring cross-browser compatibility.
- Debugged and optimized interfaces for performance.
- Applied UI/UX best practices for accessibility and navigation.

AIML virtual Internship | *Member*

July-September 2024

- Observed and learned how real-world work is done during the internship.
- Gained understanding of industry practices and workflows.
- Maintained active involvement and consistency throughout the program.
- Learned technical concepts, improved coding skills, and gained industry exposure through training.

CERTIFICATIONS

- Python Basic Programming – HackerRank
- Linux and UNIX OS Fundamentals – Infosys Springboard
- Python for Data Science – Saylor Academy
